Library Committee Meeting Agenda:
Monday, October 5, 2015 from 12-1:20 pm
Room 204, Tisch Library

1. **Introductions**
2. **Director’s Update** – Laura Wood
3. **Current state of research data and library services presentation** - Evan Simpson, Head of Research and Instruction
   
   Evan will provide an update on a variety of interrelated efforts, including the emerging funding requirements around data management and data transparency, the growing infrastructure at Tufts to provide services for research data, and the increase of data driven teaching with examples of services and collaborations to meet Tufts’ needs for finding and using data. We hope the information will be beneficial, but are also interested to gauge faculty awareness and understand your questions. This feedback will help shape our future outreach efforts.
