LISTSERV

The GISTA Boston discussion list is hosted by Tufts Elist Service, University Information Technology. The purpose of this list is to facilitate communication among GIS educators around the greater Boston area. The list can be used for non-commercial purposes including posting announcements about meetings, seminars and conferences, teaching resources, raising questions about data availability, finding GIS applications, etc.

The list is unmoderated which means that any message you send to the list will be sent to ALL subscribers exactly as you wrote it.
