

OpenMP Jan 2020

[XSEDE HPC Monthly Workshop - Mon. Jan. 21 2019 - OpenMP](#)

In conjunction with the Pittsburgh Supercomputer Center (PSC), up next at Tufts is **Multicore programming in C and Fortran using OpenMP**. This workshop is intended to give C and Fortran programmers a hands-on introduction to OpenMP programming. Attendees will leave with a working knowledge of how to write scalable codes using OpenMP. Seats will go fast, so sign up early and join the Research Technology (RT) staff for this free training. These workshops are sponsored by the National Science Foundation (NSF) funded eXtreme Science and Engineering Discovery Environment (XSEDE).

Sign-up at: [Click Here to Register](#)

Date: 1-Day, TUE, 01/21/2020 from 11AM – 5PM

Location: Science & Engineering Complex (SEC), Room 223

Address: Anderson Hall, 200 College Ave

Audience: All faculty, student and staff

We encourage everyone to register for the workshop on the XSEDE website. But we understand the official registration closes early, so WALK-INS are also welcome!
