1st Grade: Eric Carle Art Lesson

This video was presented as my Graduate School Thesis, for my "Gallery Talk" presentation at the Art Ed Festival in May 2010. The video is a montage of memories from the 1st grade art project where students learned about Book Illustrator, Eric Carle. The video can be viewed in Microsoft Movie Maker. The 1st graders are huddled together in front of the TV, so that they can watch the recorded video of Eric Carle autographing their work & giving it an A+. When the students witness this, the reaction on their faces is PRICELESS. They were so excited to have a real-life celebrity -like Carle- sign their artwork.
