(There aren't any weekly activities this semester; this is more like a continuing blog post)

Fall 2011

Fellows: Pami Anderson and Samir Chowdhury

[Semester Outline](#)

Activities

- Service learning project: Find problems within the school building that need to be fixed, and engineer solutions to the problems
- Students have come up with the following problems so far: gum under desks, lockers that don't close properly, people not flushing the toilets, and students not maintaining file when climbing stairs.
