

About TTS

Tufts Technology Services (TTS)

About us

Technology Services is comprised of a diverse, creative, and talented group of individuals who are committed to providing reliable services, innovative solutions, and excellent support to the Tufts community. Whether its email, network connectivity, the use of web 2.0 tools in the classroom, the secure transmission of networked data, applications that provide student access to registration and records, domain accounts and passwords, or free application training provided to faculty and staff on all three campuses, Technology Services and resources touch and enhance the lives of Tufts faculty, staff, and students on a daily basis.

Vision Summary

1. Robust, Secure and Modern Infrastructure
2. Flexible, Reliable and Sustainable Applications
3. Accessible, Responsive & Innovative Services
4. Productive, Inclusive and Supportive Partnerships
5. Transparent, Effective, & Professional Processes
6. Forward Thinking, Fiscally Responsible Funding Practices
